

CREATING THE NEW AMERICA FOR WORLD COMMUNISM

THE 19TH CENTURY) Rich industrialists used Marx's economic blueprint, Communism, in building their American "Empire". The "Radical Republicans" understood that the faction known as the Synagogue of Satan (*today known as the Zionists*) would want to steal it for full control over time, *i.e.*, progressive.

In the 1850s, Radical Republican, Daniel Webster, warned about what we are dealing with today (*see the meme*).¹ He used misdirection to cover-up that there is a "Shadow Government (*Zionists*)". The entity titled "Deep State" is blamed for the alleged "Communist" takeover. The sad fact is, Communism had been progressively installed from the 1850s and has been fully present in the USA for 50 years.

The Democrats/Liberals are the overt useful idiots moving the Zionist program forward via theater of *Marxism*. They're thought to be the faction turning over America to the "Zionist faction" to advance World Communism. As it appears Republicans are preserving the "Republic" but are really maintaining control under Reconstruction... The system being *progressive* from inception in 1787. Trump appears to be saving the "Empire" but is compromised as he is *in bed* with the Synagogue of Satan (*or Zionists*).

That said, Trump has absolutely no directive to put America back under the Republic — *unless possibly pushed to...* which can only happen with people of America understanding proper history and law.

FINISHING TOUCHES VIA MARXISM THE PAST 50 YEARS

Manufacturing Chaos : Population in the 1960s was about 200 million, which is now 320 million.

- Import immigrants from 1960 to 2000+
- Immigrants aren't expected to assimilate
- Begin dumbing down population in 1970's
- Test Americans patriotism with Waco attack
- Attack Twin Towers then blame it on Muslims
- Soften Americans with Socialist Black President
- Make America Great with a Populist President
- All rights destroyed via 14th Amendment ²
- Largest lot of voters in history is in place ²
- Virus attack for legal control via fear

The above outline was to destroy the Anglo Saxon America. The plot of bringing in a Socialist Black President was to create racial tension; being intensified by allowing a Populist President who is going to Make America Great Again. The motto itself establishes angst and further tension. This plot of purpose to create Totalitarian Communism. By the 1960s, America as Socialist per FDR, all Planks of the Communist Manifesto and much of its dogma was installed. The centralized control of education was the last thing required to fulfill Communism. Simply, the chaos seen at this time is grounded in Marxist principles to achieve takeover and cover-up the Communist system. Americans have no idea what is transpiring. Communism will remain after the "dust has settled" with Americans and the world being clueless.

Simply, Hegelian Dialectic has been used via extreme Leftism to bring things to desired result.

NOTES

Note it took over 200 years to get the population to 200 million and less than a quarter of the time to get it upped another 100 million. The acceleration is orchestrated and had its chaotic calculations.
